## SECRETARY TALKS ON LABOR QUESTION

**Believes Decisive Move  
Should Be Made  
At Once**

As a member of the Board of Immigration, Secretary Atkinson is becoming somewhat exercised over the turn affairs have taken in the immigration question. The all-absorbing question with the Secretary is to inaugurate some powerful scheme to prevent the old-time Portuguese from leaving the islands, or at least to hold out some inducement strong enough to overcome their desire to leave.

"I think that the crisis in immigration matters has been reached," Mr. Atkinson has been quoted as saying yesterday, "and that some action, and very decisive action, must be taken immediately."

"Here the Portuguese are leaving—four hundred last Alameda and four hundred to follow next Alameda. Do you know what that means? It is that in four trips of the San Francisco steamer as many Portuguese will have left as were brought here by the Suveric at a cost of \$75,000."

"When you have a crisis I believe in facing it. If the remedy is severe let it nevertheless be adopted. It stands to plain arithmetic that if they continue to leave at the present rate, the Territory will soon be depleted of its industrious and law-abiding Portuguese population."

The Secretary says that as a result of the recent immigration law whereby Japanese are allowed to enter Hawaii in any numbers but are not allowed to pass on to the mainland, it places these islands on the basis of an Asiatic community.

The situation must be looked squarely in the face, says Atkinson, who believes that the time has come when a "spade is called a spade," with out any flourishes or postscripts. He says:

"Some people do not believe in telling these facts, but I do not believe in holding them back."

When questioned as to methods to be employed in keeping the Portuguese here, the Secretary offers the following:

"I do not say we can hold everybody here but I do know a method by which we can hold a whole lot of people. That is, not only to employ the Portuguese but others we have here in all the mechanical positions around the sugar mills and elsewhere, but to domicile such people as well."

"I believe that the agricultural interests should dig down into their pockets and pay their labor such wages as would hold those people here, because if they lose them they will have to get others."

"This country is going ahead. It is not going backward. We are not the kind of people that lie down every time a crisis arises."

"Yes, by all means continue the immigration of Europeans. From the fact that as many go away in four trips of the Alameda as we receive in a single shipment at enormous expense things naturally look very black. And the fact that Japanese are allowed to come here and not to go to the mainland makes it look blacker for the Americanization of this Territory, but don't you suppose for one moment that I believe in quitting."

"The President will not desert us. I believe he will see us and our policy through. I personally know how he feels about this matter, and don't you think for one moment that he is going to allow Hawaii to take a step backward. He is not built that way. We are a long way from headquarters. He knows more about the situation than we do. You never heard of President Roosevelt retreating from a position."

"Another thing. Do you know what this crisis means for Hawaii? It means that this Government recognizes the condition of affairs as a signal to redouble its efforts to get the land settled. The time of delay has gone by. The public lands must at once be opened up for settlement."

## LOOK OUT FOR THE FIRST OF APRIL

The Honolulu Brewing & Malting Co. have concluded not to put out their Bock Beer until the proper season, April 1. They believe the public will better appreciate it at that time. They will on that date offer to the public the best Bock Beer that has ever been put on this market.

**BULLETIN ADS. PAY**

It was not until they had wandered in some perplexity through the corridors and courtrooms of the Temple Sherith Israel on Friday afternoon that George Nobisada, who for fifteen years has been the cook of Leonidas J. Scofield, the real estate and lumber man, and Okou Kusoda, his fiancée from the Mikado's empire, who has been housemaid for seven years to Mrs. Henry E. Highton, were finally enabled through the assistance of Superior Judge Graham to be wedded after the American fashion. The couple got their marriage license with little difficulty, but just whom they should seek to perform the wedding ceremony they did not know until bystanders directed them.—Chronicle.

## BACKACHE AND DESPONDENCY

Are both symptoms of organic derangement, and nature's warning to women of a trouble which will sooner or later declare itself.

How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition.

They do not realize that the back is the main-spring of woman's organism and quickly indicates by aching a diseased condition of the feminine organs or kidneys, and that aches and pains will continue until the cause is removed.

**Lydia E. Pinkham's Vegetable Compound** made from native roots and herbs has been for many years the most successful remedy in such cases. No other medicine has such a record of cures of feminine ills.

Miss Lena Nagel, of 117 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired. Lydia E. Pinkham's Vegetable Compound completely cured me."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, and all Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and tones the Stomach. Cures Headache and indigestion and invigorates the whole feminine system.

**Mrs. Pinkham's Standing Invitation to Women**  
Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. Her advice is free.

The sea at the landing was said to be exceptionally smooth. The luau prepared for the visitors was kept from spoiling by the settlement people.

## M'GANDLESS FAVORS GRADED INCOME TAX

Regarding the different methods put forth with a view to raising additional revenue that may be needed to carry on present immigration work, J. A. McCandless is greatly in favor of a graduated income tax. He considers it a very unwise proposition to raise the present tax rate of one per cent on property.

He says: "I maintain that the way to get that money is out of a progressive income tax. Let the rich men stand it, if they will benefit by it. I believe the Supreme Court would stand by a graduated income tax. While I thoroughly believe that a man with an income of a thousand dollars should pay something, still I would not increase the tax on small incomes. Let those who are well able, those who will receive the more immediate benefits from the introduction of labor, bear the principal weight of the burden."
